## CALSTRS KEY PARTNERS IN SUSTAINABILITY

---

**Attachment(s):** Attachment 1 - Key Partnerships Glossary: comprehensive list of CalSTRS associations and partnerships for reference.

**PowerPoint(s):** PowerPoint 1 – Highlighting Priority Partnerships

---

During this information session, staff will provide an overview of the partnerships that CalSTRS leverages to achieve our sustainability-related strategic goals.

The presentation will highlight priority partnerships from both an Enterprise (total CalSTRS organization) and Investments (Investments Branch specific) perspective and areas of overlap. Staff has selected specific priority partnerships to describe the organization, its goals, why the partnership is important and beneficial to CalSTRS and the shared near-term objectives that we are working to achieve. Although CalSTRS has the privilege of being both large and influential, the priority partnerships demonstrate the importance of collective action to address global sustainability challenges.

The Key Partnerships Glossary is intended as a ‘long list’ of CalSTRS sustainability relationships and a complement to the more focused priority partnerships. The level of CalSTRS involvement in each organization varies, as does the organizations’ narrow or broad coverage of sustainability-related topics. The list demonstrates the extent and range of the expertise and relationships that CalSTRS can access on sustainability matters.
