PowerPoint(s): The Future of Boards: Meeting Governance Challenges.

The purpose of this session is to provide board members with the latest information and education on how effective boards are evolving to meet today’s governance challenges. The presentation will delve into the increasing pressures on corporate boards and the resulting significant changes in their roles and engagement with the organizations they serve.

Celia Huber, a Senior Partner at McKinsey’s Silicon Valley Office and the North American Leader of McKinsey’s Board Services Practice, will lead the session. With over 25 years of experience working with corporate boards, Celia is highly esteemed in the industry and a prolific author on board governance. She will present recent research on corporate boards and provide actionable insights on creating a value-enhancing, highly effective board. The session will include an opportunity for Q&A and discussion to actively engage board members. Celia's bio is attached for your reference.
