Report on the Audit of the Schedules

Opinions

We have audited the accompanying Schedule of proportionate share of contributions for employers and nonemployer contributing entity of the State Teachers' Retirement Plan, a plan administered by the California State Teachers' Retirement System ("CalSTRS"), for the year ended June 30, 2026, and the related notes. We have also audited the captions titled total net pension liability as of June 30, 2026, total deferred outflows of resources, and total deferred inflows of resources (specified caption totals) included in the accompanying Schedule of aggregate pension amounts for employers and nonemployer contributing entity as of June 30, 2026, and the related notes.

In our opinion, the accompanying schedules referred to above present fairly, in all material respects, the proportionate share of contributions for employers and nonemployer contributing entity for the year ended June 30, 2026, and total net pension liability as of June 30, 2026, total deferred outflows of resources, and total deferred inflows of resources for the State Teachers' Retirement Plan (STRP), as of June 30, 2026 in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinions

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS) and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States *(Government Auditing Standards)*. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Schedules section of our report. We are required to be independent of the California State Teachers' Retirement System, and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Emphasis of Matter

As discussed in Note 3, based on the most recent actuarial valuation as of June 30, 2025, the System's independent actuaries determined that, at June 30, 2026, the value of the STRP total pension liability exceeded the STRP fiduciary net position by $32.5 billion. The actuarial valuation is sensitive to the underlying actuarial assumptions, including investment rate of return of 7.10%, consumer price inflation of 2.75%, wage growth of 3.5% and custom mortality tables based on CalSTRS most recent Experience Analysis. Our opinions are not modified with respect to this matter.

Responsibilities of Management for the Schedules

Management is responsible for the preparation and fair presentation of the schedules in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibilities for the Audit of the Schedules

Our objectives are to obtain reasonable assurance about whether the Schedule of proportionate share of contributions for employers and nonemployer contributing entity and the specified caption totals included in the accompanying Schedule of aggregate pension amounts for employers and nonemployer contributing entity are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the Schedule of proportionate share of contributions for employers and nonemployer contributing entity and the specified caption totals included in the accompanying Schedule of aggregate pension amounts for employers and nonemployer contributing entity.

In performing an audit in accordance with GAAS and *Government Auditing Standards*, we

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the Schedule of proportionate share of contributions for employers and nonemployer contributing entity and the specified caption totals included in the accompanying Schedule of aggregate pension amounts for employers and nonemployer contributing entity, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the Schedule of proportionate share of contributions for employers and nonemployer contributing entity and the specified caption totals included in the accompanying Schedule of aggregate pension amounts for employers and nonemployer contributing entity.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the California State Teachers' Retirement System's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the Schedule of proportionate share of contributions for employers and nonemployer contributing entity and the specified caption totals included in the accompanying Schedule of aggregate pension amounts for employers and nonemployer contributing entity.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matter

We have audited, in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States, the financial statements of the California State Teachers' Retirement System, which includes the State Teachers' Retirement Plan, as of and for the year ended June 30, 2026, and our report thereon, October 7, 2026, expressed an unmodified opinion on those financial statements.

Restriction on Use

Our report is intended solely for the use and information of the California State Teachers' Retirement System, the California State Teachers' Retirement System's management, the governing body of the California State Teachers' Retirement System and the State Teachers' Retirement Plan employers and nonemployer contributing entity and their auditors and is not intended to be and should not be used by anyone other than these specified parties.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards,* we have also issued our report dated October 7, 2026, on our consideration of the State Teachers' Retirement Plan's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters related to the Schedule of proportionate share of contributions for employers and nonemployer contributing entity and the specified caption totals included in the accompanying Schedule of aggregate pension amounts for employers and nonemployer contributing entity. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the State Teachers' Retirement Plan's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the State Teachers' Retirement Plan's internal control over financial reporting and compliance.

63098	City College of San Francisco	106,205	0.001%
63098	**City College of San Francisco**	**106,205**	
Total CalSTRS-calculated employer contributions		8,975,084,550	65.924%
State of California contributions (nonemployer contributing entity)[1]		4,639,125,429	34.076%
Total employer and state contributions included in the proportionate share calculation		**13,614,209,979**	**100.000%**
Plus: Contributions for separately financed liabilities of individual employers[2]		8,434,920	
Less: Employer contributions redirected to fund the Medicare Premium Payment Program		20,768,061	
Total employer and state contributions in the statement of changes in fiduciary net position[3]		**$13,601,876,838**	

1 CalSTRS recognizes state contributions for the entire fiscal year at the beginning of each fiscal year per CalSTRS revenue recognition policy.

2 Contributions excluded from proportionate share calculation per CalSTRS policy. These include employer contributions for retirement incentives, additional service credit and unused excess sick leave.

3 Total employer and state contributions may differ from the statement of changes in fiduciary net position due to rounding.

The accompanying notes are an integral part of these schedules.

State Teachers' Retirement Plan
Schedule of aggregate pension amounts for employers and nonemployer contributing entity

As of and for the year ended June 30, 2026 **Schedule B[1]**

(dollars in millions)

Change in net pension liability (NPL) recognized immediately in pension expense	
Change in NPL	
Total net pension liability as of June 30, 2026	$32,533
Total net pension liability as of June 30, 2025	63,734
Total change in NPL	**(31,201)**
Less: current year amounts subject to deferral	
Differences between expected and actual experience	(1,367)
Changes of assumptions	–
Net differences between projected and actual earnings on plan investments	(25,893)
Total current year amounts subject to deferral	**(27,260)**
Total change in NPL recognized immediately in pension expense	**($3,941)**

Current year reduction of deferred outflows of resources	
Differences between expected and actual experience[2]	$2,382
Changes of assumptions[2]	147
Net differences between projected and actual earnings on plan investments[3]	–
Total current year reduction of deferred outflows of resources	**$2,529**
Current year reduction of deferred inflows of resources	
Differences between expected and actual experience[2]	$1,050
Changes of assumptions[2]	764
Net differences between projected and actual earnings on plan investments[3]	1,241
Total current year reduction of deferred inflows of resources	**$3,055**
Balance of deferred outflows of resources	
Differences between expected and actual experience	$9,475
Changes of assumptions	–
Net differences between projected and actual earnings on plan investments	–
Total deferred outflows of resources	**$9,475**
Balance of deferred inflows of resources	
Differences between expected and actual experience	$2,133
Changes of assumptions	3,059
Net differences between projected and actual earnings on plan investments	26,358
Total deferred inflows of resources	**$31,550**

1 This schedule does not include deferred outflows and inflows of resources for changes in an employer's proportion, differences between actual and proportionate share of employer contributions or employer contributions made subsequent to the measurement date.

2 Deferred outflows and inflows of resources related to differences between expected and actual experience and changes of assumptions are amortized over a closed period equal to the average of the expected remaining service lives of all active and inactive members. The average expected remaining service life for STRP members based on the financial reporting actuarial valuation as of June 30, 2026, is seven years.

3 Deferred outflows and inflows of resources related to differences between projected and actual earnings on plan investments are netted and amortized over a closed five-year period. The respective amounts for different fiscal years are aggregated and reported as a net deferred outflow or a net deferred inflow of resources in the table above.

The accompanying notes are an integral part of these schedules.

State Teachers' Retirement Plan
Notes to other pension information

1. Plan description and contribution information

The California State Teachers' Retirement System (CalSTRS, the system, we, our) administers a hybrid retirement system consisting of a defined benefit plan, two defined contribution plans, a postemployment benefit plan and a fund used to account for ancillary activities associated with the deferred compensation plans and programs:

- State Teachers' Retirement Plan (STRP)
- CalSTRS Pension2 403(b) Plan
- CalSTRS Pension2 457(b) Plan
- Medicare Premium Payment (MPP) Program
- Teachers' Deferred Compensation Fund (TDCF)

CalSTRS provides pension benefits, including disability and survivor benefits, to full-time and part-time California public school teachers from pre kindergarten through community college and certain other employees of the public school system and other state agencies. The Teachers' Retirement Law (California Education Code section 22000 et seq.), as enacted and amended by the California Legislature and the Governor, established these plans and CalSTRS as the administrator. The terms of the plans may be amended through legislation.

The STRP is a multiple-employer, cost-sharing defined benefit plan composed of four programs: Defined Benefit (DB) Program, Defined Benefit Supplement (DBS) Program, Cash Balance Benefit (CBB) Program and Replacement Benefits (RB) Program. A Supplemental Benefit Maintenance Account (SBMA) exists within the STRP and provides purchasing power protection for DB Program benefits. The STRP holds assets for the exclusive purpose of providing benefits to members of these programs and their beneficiaries. CalSTRS also uses plan assets to defray reasonable expenses of administering the STRP. Although CalSTRS is the administrator of the STRP, the State of California (the state) is the sponsor and obligor of the trust. In addition, the state is both an employer and nonemployer contributing entity to the STRP.

As of June 30, 2026, there were approximately 1,800 employers (school districts, community college districts, county offices of education, charter schools, state agencies and regional occupational programs) reporting payroll data through 73[1] reporting entities to the DB Program.

The following table presents rounded membership numbers for the DB Program as of June 30, 2026:

Active members	
Vested	329,000
Nonvested	142,000
Total active members	**471,000**
Inactive members	
Vested	53,000
Nonvested	199,000
Total inactive members	**252,000**
Retirees and beneficiaries	**343,000**
TOTAL MEMBERS, RETIREES AND BENEFICIARIES	**1,066,000**

All members of the DB Program have an account under the DBS Program. In addition, as of June 30, 2026, the CBB Program had 29 employers reporting payroll data through 28[1] reporting entities for 8,416 contributing participants.

[1] Schedule A presents 95 reporting entities that report payroll data to the DB and CBB programs. The total for DB and CBB reporting entities disclosed here does not equal the 95 shown on Schedule A. Reporting entities are primarily county offices of education (COE); however certain school and community college districts report their payroll data for the DB and/or CBB program directly to CalSTRS instead of reporting through a COE. The direct reporters may appear twice on the schedule, once under their COEs for their DB/DBS contributions and again separately as a reporting source for their CBB contributions.

State Teachers' Retirement Plan
Notes to other pension information

STRP contributions for DB Program

The parameters for employer and state contribution rates for the DB Program are set by the California Legislature and the Governor and detailed in the Teachers' Retirement Law. Current contribution rates were established by California Assembly Bill 1469 (CalSTRS Funding Plan), which was passed into law in June 2014 and established a schedule of contribution rate increases shared among members, employers and the state to bring CalSTRS toward full funding by 2046.

Employers

Employers are required to contribute a base contribution rate set in statute at 8.25%. Pursuant to the CalSTRS Funding Plan, employers also contribute an additional amount on all compensation that is creditable to the DB Program to eliminate their share of the CalSTRS unfunded actuarial obligation by 2046. The CalSTRS Funding Plan authorizes the board to adjust this amount, also known as the employer supplemental contribution rate, up or down by a maximum of 1% for a total rate of no higher than 20.25% and no lower than 8.25%. In May 2026, the board voted to keep the employer supplemental contribution rate at 10.85% for fiscal year 2026–27 for a total employer contribution rate of 19.10%.

Employer contribution rates as described above and effective for fiscal year 2025–26 and beyond are summarized below:

Effective date	Base rate	Supplemental rate per CalSTRS Funding Plan	Total rate
July 1, 2025	8.250%	10.850%	19.100%
July 1, 2026	8.250%	10.850%	19.100%
July 1, 2027–June 30, 2046	8.250%	[1]	[1]
July 1, 2046	8.250%	Increase from AB 1469 not applicable in 2046–47 and beyond	

[1] The CalSTRS Funding Plan authorizes the board to adjust the employer contribution rate up or down by up to 1% each year, but no higher than 20.25% and no lower than 8.25%.

State

The state is required to contribute a base contribution rate set in statute at 2.017% of the total compensation that is credited to the DB Program. Pursuant to the CalSTRS Funding Plan, the state also has a supplemental contribution rate, which the board can increase by no more than 0.5% each fiscal year to help eliminate the state's share of the CalSTRS unfunded actuarial obligation by 2046. In May 2026, the board voted to keep the state supplemental contribution rate at 6.311% for fiscal year 2026–27.

The total state contribution rate also includes a portion to fund the SBMA, which provides inflation protection to CalSTRS members whose current purchasing power has fallen below 85% of the purchasing power of their initial benefit. The SBMA is funded through a continuous appropriation from the state's General Fund in an amount equal to 2.5% of the total creditable compensation of the fiscal year ended in the immediately preceding calendar year, reduced by $72.0 million, pursuant to California Education Code section 22954. The total state contribution rate is 10.828% effective July 1, 2026.

State contribution rates as described above and effective for fiscal year 2025–26 and beyond are summarized below:

Effective date	Base rate	Supplemental rate per CalSTRS Funding Plan	SBMA funding	Total
July 1, 2025	2.017%	6.311%	2.500%	10.828%
July 1, 2026	2.017%	6.311%	2.500%	10.828%
July 1, 2027–June 30, 2046	2.017%	[1]	2.500%	[1]
July 1, 2046	2.017%	[2]	2.500%	[2]

[1] The board has limited authority to adjust the state contribution rate annually through June 2046 to eliminate the remaining unfunded actuarial obligation. The board cannot increase the supplemental rate by more than 0.5% in a fiscal year, and if there is no unfunded actuarial obligation, the supplemental contribution rate would be reduced to 0%.

[2] From July 1, 2046, and thereafter, the board has limited authority to adjust the state contribution rate to fund the normal cost deficit or the unfunded obligation. The board cannot adjust the supplemental rate by more than 0.25% per year, and the supplemental rate may not exceed 1.505% in total. If there is neither an unfunded obligation nor a normal cost deficit, the supplemental contribution rate would be reduced to 0%.

STRP contributions for DBS Program

For creditable service performed by DB Program members in excess of one year of service credit within one fiscal year, employer contributions of 8% are credited to the members' nominal DBS Program accounts (up to any applicable compensation cap). For CalSTRS 2% at 60 members only, employer contributions of 8% for compensation as a result of limited-term payments or compensation determined to have been paid to enhance their DB Program benefits are also credited to DBS Program accounts.

STRP contributions for CBB Program

Employers contribute 4.0% of applicable CBB Program participant salaries. Additionally, employers may enter into a collective bargaining agreement to pay different rates if certain minimum conditions are met.

STRP contributions for RB Program

The RB Program is an excess benefits arrangement for DB Program members that is administered as a qualified excess benefit arrangement through a separate pension program apart from the other three STRP programs. Employer contributions that would otherwise be credited to the DB Program each month are instead credited to the RB Program to fund monthly program costs.

2. Summary of significant accounting policies

Basis of presentation

Employers participating in the STRP are required to report pension information in their financial statements in accordance with Governmental Accounting Standards Board (GASB) Statement No. 68, *Accounting and Financial Reporting for Pensions—An Amendment of GASB Statement No. 27*. The schedule of proportionate share of contributions for employers and nonemployer contributing entity (Schedule A) and the schedule of aggregate pension amounts for employers and nonemployer contributing entity (Schedule B) provide employers with certain information related to the STRP that may be used for their financial reporting.

Employer contributions provided on Schedule A are presented in order by the CalSTRS-assigned employer reporting numbers within a grouping for each CalSTRS reporting source (typically a county office of education). Individual employers that separately report their CBB Program contributions may appear twice on the schedule; once within the grouping by CalSTRS' reporting source for their DB and DBS program contributions and once as a separate reporting source for their CBB Program contributions (near the end of Schedule A).

The employer proportionate share of total employer and state (a nonemployer contributing entity) contributions has been rounded to the nearest thousandth of a percentage point (three decimal places).

Basis of accounting and use of estimates

The accompanying schedules were prepared in conformity with accounting principles generally accepted in the U.S. as promulgated by GASB, which require management to make estimates and assumptions that affect certain amounts and disclosures.

The current year employer contributions are calculated by CalSTRS based on creditable compensation for active members reported by employers. Employer and state contributions are recognized in the period in which the contributions are required by statute. Cash remittances of contributions due are received from employers prior to receiving their reports of creditable earnings by members. As a result, CalSTRS accrues employer contributions due monthly using current contribution rates and estimates of creditable compensation based on historical information. Contributions and adjustments to contributions reported in the current year for service performed in a prior year are recognized as contributions in the current year and included in the schedule of proportionate share.

CalSTRS accrues contributions due from the state at the beginning of each fiscal year based on the creditable earnings reported by employers for the fiscal year ending in the immediately preceding calendar year.

Schedule A reflects current year employer contributions calculated by CalSTRS with consideration given to separately financed and irregular contributions. The schedule includes:

- Employer or nonemployer contributing entity.
- Amount of the entity's contributions as defined above for the fiscal year, offset by the prior year accrual for the same entity.
- Entity's contributions as a percentage of total employer and state contributions (as previously defined).

3. Net pension liability of employers and nonemployer contributing entity

The components of the net pension liability (NPL) of the STRP for participating employers and the state (nonemployer contributing entity) as of June 30, 2026, are as follows:

Components of the NPL — STRP[1]

	(dollars in millions)
Total pension liability	$452,253
Less: STRP fiduciary net position	419,720
NPL of employers and the State of California	**$32,533**
STRP fiduciary net position as a percentage of the total pension liability	92.8%

1 Includes all plans and programs in the STRP.

Actuarial methods and assumptions relating to Schedule B

The total pension liability for the STRP was determined by applying update procedures to the financial reporting actuarial valuation as of June 30, 2025, and rolling forward the total pension liability to June 30, 2026. Significant actuarial methods and assumptions used in the financial reporting actuarial valuation report to determine the total pension liability as of June 30, 2026, include:

Valuation date	June 30, 2025
Experience study[1]	July 1, 2007–June 30, 2022
Actuarial cost method	Entry age actuarial cost method
Investment rate of return[2]	7.10%
Consumer price inflation	2.75%
Wage growth	3.50%
Postretirement benefit increases	2% simple for DB (annually) Maintain 85% purchasing power level for DB, not applicable for DBS/CBB

1 Both a five-year period (July 1, 2017–June 30, 2022) and 15-year period were considered in the 2024 experience study; however, assumptions were primarily based on the results of the 15-year study. Additional information is available in the 2024 experience analysis report available at CalSTRS.com.

2 Net of investment expenses but gross of administrative expenses.

The sections that follow provide additional discussion on key assumptions and methods for the valuation of the STRP.

Discount rate

The discount rate used to measure the total pension liability was 7.10%, which was unchanged from the prior fiscal year.

The projection of cash flows used to determine the discount rate assumed that contributions from plan members and employers are made at statutory contribution rates in accordance with the rate increases as disclosed in Note 1. Projected inflows from investment earnings were calculated using the long-term assumed investment rate of return of 7.10% and assume that contributions, benefit payments and administrative expenses occur midyear.

Based on those assumptions, the STRP's fiduciary net position was projected to be available to make all projected future benefit payments to current plan members. Therefore, the long-term assumed investment rate of return was applied to all periods of projected benefit payments to determine the total pension liability.

The long-term investment rate of return assumption was determined using a building-block method in which best-estimate ranges of expected future real rates of return are developed for each major asset class/strategy. Expected real rates of return are net of our 2.75% inflation assumption and are derived from best-estimate ranges of 20- to 30-year geometrically linked expected returns. These best-estimate ranges were developed using capital market assumptions from CalSTRS investment staff and investment consultants as inputs to the process.

The actuarial investment rate of return assumption was adopted by the board in January 2024 in conjunction with the most recent experience study. For each current and future valuation, CalSTRS' independent consulting actuary (Milliman) reviews the return assumption for reasonableness based on the most current capital market assumptions. The assumed asset allocation and best estimates of the expected rates of return for each major asset class/strategy as of June 30, 2026, are summarized in the following table:

Asset class/ Strategy	Assumed asset allocation	Long-term expected rate of return[1]	Long-term expected real rate of return[1,2]
Public Equity	38.0%	8.00%	5.25%
Real Estate	15.0%	6.80%	4.05%
Private Equity	14.0%	9.50%	6.75%
Fixed Income	14.0%	5.20%	2.45%
Risk Mitigating Strategies	10.0%	5.00%	2.25%
Inflation Sensitive	7.0%	6.40%	3.65%
Cash/Liquidity	2.0%	2.80%	0.05%

1 20- to 30-year geometric average.

2 Real rates of return are net of assumed 2.75% inflation.

Notes to other pension information

Sensitivity of NPL to changes in the discount rate

Presented below is the NPL of employers and the state using the current discount rate as well as what the NPL would be if it were calculated using a discount rate that is 1% to 3% lower or 1% to 3% higher than the current rate:

Discount rate	NPL of employers and nonemployer contributing entity (dollars in millions)
3% decrease (4.10%)	$245,626
2% decrease (5.10%)	160,530
1% decrease (6.10%)	90,479
Current rate (7.10%)	32,533
1% increase (8.10%)	(15,818)
2% increase (9.10%)	(56,494)
3% increase (10.10%)	(90,843)

Mortality

CalSTRS uses a generational mortality assumption, which is based off generational mortality tables that reflect expected future improvements in mortality and includes a base table and a projection table. The base mortality tables are CalSTRS custom tables derived to best fit the patterns of mortality among our members. The projection table reflects the expected annual reduction in mortality rates at each age. The current mortality assumption uses a base year of 2023, and projected improvement is based on the MP–2021 Ultimate Projection Scale.

Uses of assumptions and methods

Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts (such as salaries, credited service, etc.) and assumptions about the probability of occurrence of events far into the future (such as mortality, disabilities, retirements, employment terminations, etc.). Actuarially determined amounts are subject to continual review and potential modifications, as actual results are compared with past expectations and new estimates are made about the future.

Projections of benefits for financial reporting purposes are based on the substantive plan and include the types of benefits provided at the time of each valuation and the historical pattern of benefit costs. The projection of benefits for financial reporting purposes does not explicitly incorporate the potential effects of legal or contractual funding limitations.

Actuarial calculations reflect a long-term perspective. For a newly hired employee, actuarial calculations will take into account the employee's entire career with the employer and also take into consideration the benefits, if any, paid to the employee after termination of employment until the death of the employee and any applicable contingent annuitant. In many cases, actuarial calculations reflect several decades of service with the employer and the payment of benefits after termination.

Amortization of deferred outflows and deferred inflows of resources

Deferred outflows of resources are the consumption of net position by CalSTRS that is applicable to future reporting periods, while deferred inflows of resources are the acquisition of net position by CalSTRS that is applicable to future reporting periods. Schedule B includes only certain categories of deferred outflows and inflows of resources, including differences between expected and actual experience, changes of assumptions, and differences between projected and actual earnings on plan investments. The schedule does not include deferred outflows and inflows of resources for changes in an employer's proportion, differences between actual and proportionate share of employer contributions, employer contributions made subsequent to the measurement date, or adjustments to pension revenue and expense associated with on-behalf payments made by the state (non-employer contributing entity) for each employer.

Other than differences between projected and actual investment earnings, deferred inflows and outflows of resources are recognized in pension expense beginning in the current period using a straight–line method over a closed period equal to the average of the expected remaining service lives of all plan members who are provided with pensions through CalSTRS (active and inactive). Based on the financial reporting actuarial valuation report as of June 30, 2026, the average expected remaining service life for STRP members is seven years. Similarly, deferred inflows and outflows of resources relating to differences between projected and actual earnings on plan investments are netted and amortized over a closed five-year period.

State Teachers' Retirement Plan
Notes to other pension information

As of June 30, 2026, the deferred outflows of resources and deferred inflows of resources related to the STRP from the aforementioned sources are as follows:

Schedule of deferred outflows and inflows of resources

(dollars in millions)

	Original amount	Date established	Recognition period[1]	Amount recognized in 6/30/2026 expense	Balance of deferred outflows 6/30/2026	Balance of deferred inflows 6/30/2026
Differences between expected and actual experience	($1,367)	6/30/2026	7	($195)	$–	($1,172)
	6,642	6/30/2025	7	949	4,744	–
	3,045	6/30/2024	7	435	1,740	–
	6,983	6/30/2023	7	998	2,991	–
	(1,673)	6/30/2022	7	(239)	–	(478)
	(3,369)	6/30/2021	7	(481)	–	(483)
	(963)	6/30/2020	7	(135)	–	–
Total				**$1,332**	**$9,475**	**($2,133)**
Net differences between projected and actual earnings on plan investments[2]	($25,893)	6/30/2026	5	($5,179)	$–	($20,714)
	(7,424)	6/30/2025	5	(1,485)	–	(4,454)
	(3,744)	6/30/2024	5	(749)	–	(1,497)
	1,531	6/30/2023	5	306	–	307
	29,322	6/30/2022	5	5,866	–	–
Total				**($1,241)**	**$–**	**($26,358)**
Changes of assumptions	($5,351)	6/30/2024	7	($764)	$–	($3,059)
	1,029	6/30/2020	7	147	–	–
Total				**($617)**	**$–**	**($3,059)**

[1] Deferred outflows and inflows of resources related to differences between projected and actual earnings on plan investments are netted and amortized over a closed five-year period. Deferred outflows and inflows of resources related to differences between expected and actual experience and changes of assumptions are amortized over seven years based on the financial reporting actuarial valuation as of June 30, 2026, which is a closed period equal to the average remaining service life of plan members.

[2] Deferred outflows and deferred inflows of resources arising from differences between projected and actual pension plan investment earnings in different fiscal years are aggregated and reported as a net deferred outflow or a net deferred inflow of resources related to pensions.

Deferred outflows and inflows of resources to be recognized in pension expense in future periods are as follows:

Future deferred outflows and inflows of resources recognition

(dollars in millions)

	Net differences between projected and actual earnings on plan investments	Differences between expected and actual experience	Changes of assumptions
Year ended June 30			
2027	($7,106)	$1,465	($764)
2028	(7,412)	1,948	(764)
2029	(6,663)	2,184	(764)
2030	(5,177)	1,189	(767)
2031	–	753	–
Thereafter	–	(197)	–
